

1st screen shot is after power up.

The screenshot shows a Windows XP desktop environment. On the left, the desktop background is a nature scene with a lake and trees. Icons for 'Desk Drawer', 'config.bin', 'putty.log', and 'bookmarks...' are visible. The taskbar at the bottom shows several open applications: 'WLAN-AP - Mozilla ...', 'FrigWeb', 'PRC Project', 'COM17 - PuTTY', and 'GFMv1 - MPLAB IDE ...'. The system clock in the bottom right corner indicates '5:28 PM'.

The main focus is the 'WLAN-AP - Mozilla Firefox' browser window. The address bar shows the URL '192.168.16.254/home.asp'. The browser tabs include 'WLAN-AP', 'netis Wirele...', 'http://...5050/', 'WLAN-AP', 'Serial Librari...', 'Webserver ...', 'Interaction ...', and 'HTT'. The page title is 'WLAN Gateway Module....'.

The web interface is divided into two main sections. On the left is a navigation menu with the following items: 'WLAN AP', 'Operation Mode', 'Internet Settings', 'Wireless Settings', 'Serial Setting', 'Firewall', 'Managements', 'System Mgmt' (highlighted), 'Firmware Mgmt', 'Config Mgmt', 'Port Mgmt', 'Packet Statistics', 'System Status', and 'System Log'. A descriptive text next to the 'System Mgmt' menu item reads: 'Configure lanaguage code for web sever, login account and password, NTP(system time sone), Green AP function for power save, Dynamic DNS.'

The right section is titled 'System Management' and contains several configuration panels:

- Language Settings:** A dropdown menu for 'Select Language' is set to 'English', with a 'Save' button.
- Module Name:** A text field for 'Name' contains 'PRC001', with a 'Save' button.
- Administrator Settings:** Fields for 'Account' (containing 'admin') and 'Password' (containing '.....'), with a 'Save' button.
- Telnet Connection Count:** A 'Count' field is set to '5' (with a note '(default:5, 1-10)'), with a 'Save' button.
- NTP Settings:** Fields for 'Current Time' (containing 'Sun Aug 10 16:26:06 GMT'), 'Time Zone' (a dropdown set to '(GMT-05:00) Eastern Time'), 'NTP Server' (containing 'time.bora.net' with examples 'ex: time.nist.gov , ntp0.broad.mit.edu , time.stdtime.gov.tw'), and 'NTP synchronization(hours)' (set to '1'), each with a 'Save' button.

2nd screen shot is after pressing 'Sync with Host'. This is the correct time.

The screenshot shows a Windows desktop environment. On the left, the desktop background is a landscape image with a lake and trees. Several icons are visible on the desktop: 'Desk Drawer', 'config.bin', 'putty.log', and 'bookmarks...'. The taskbar at the bottom contains several open applications: 'WLAN-AP - Mozilla ...', 'FrigWeb', 'PRC Project', 'COM17 - PuTTY', 'GFMv1 - MPLAB IDE...', 'Document1 - Micro...', and a system tray with various icons and the time '5:29 PM'.

The main window is a Mozilla Firefox browser displaying the 'WLAN-AP' web interface. The address bar shows the URL '192.168.16.254/home.asp'. The browser tabs include 'WLAN-AP', 'netis Wirele...', 'http://...:5050/', 'WLAN-AP', 'Serial Librari...', 'Webserver ...', 'Interaction ...', and 'HTT'. The page title is 'WLAN Gateway Module....'. The left sidebar contains a tree view with the following items: 'WLAN AP', 'Operation Mode', 'Internet Settings', 'Wireless Settings', 'Serial Setting', 'Firewall', 'Managements', 'System Mgmt', 'Firmware Mgmt', 'Config Mgmt', 'Port Mgmt', 'Packet Statistics', 'System Status', and 'System Log'. The 'System Mgmt' item is selected.

The main content area is titled 'System Management' and contains several configuration sections:

- Language Settings:** A dropdown menu for 'Select Language' is set to 'English'. A 'Save' button is next to it.
- Module Name:** A text field for 'Name' contains 'PRC001'. A 'Save' button is next to it.
- Administrator Settings:** A text field for 'Account' contains 'admin'. A password field for 'Password' contains six dots. A 'Save' button is below these fields.
- Telnet Connection Count:** A text field for 'Count' contains '5'. A note '(default:5, 1-10)' is next to it. A 'Save' button is next to it.
- NTP Settings:** A text field for 'Current Time' contains 'Sun Aug 10 17:29:00 GMT'. A 'Sync with host' button is next to it. A dropdown menu for 'Time Zone:' is set to '(GMT-05:00) Eastern Time'. A text field for 'NTP Server' contains 'time.bora.net'. A note 'ex: time.nist.gov , ntp0.broad.mit.edu , time.stdtime.gov.tw' is next to it. A text field for 'NTP synchronization(hours)' contains '1'. A 'Save' button is below these fields.

3rd iscreen shot is after clicking Done twice.

The screenshot shows a Windows XP desktop environment. On the left, a text editor (likely Notepad) is open, displaying a blank document with a green background image. The right side of the screen is occupied by a Mozilla Firefox browser window titled "WLAN-AP - Mozilla Firefox". The browser's address bar shows the URL "192.168.16.254/home.asp". The main content area of the browser displays the "WLAN Gateway Module...." configuration page. The page has a sidebar menu on the left with options like "Operation Mode", "Internet Settings", "Wireless Settings", "Serial Setting", "Firewall", and "Managements". The "System Mgmt" option is selected. The main content area is titled "System Management" and contains several configuration sections: "Language Settings" (Language: English), "Module Name" (Name: PRC001), "Administrator Settings" (Account: admin, Password: ****), "Telnet Connection Count" (Count: 5), and "NTP Settings" (Current Time: Sun Aug 10 16:30:03 GMT, Time Zone: (GMT-05:00) Eastern Time, NTP Server: time.bora.net, NTP synchronization(hours): 1). Each section has a "Save" button. The taskbar at the bottom shows several open applications: "WLAN-AP - Mozilla ...", "FrigWeb", "PRC Project", "COM17 - PuTTY", "GFMv1 - MPLAB IDE...", "Document1 - Micro...", and a system clock showing 5:30 PM.

WLAN-AP - Mozilla ... FrigWeb PRC Project COM17 - PuTTY GFMv1 - MPLAB IDE... Document1 - Micro... 5:30 PM

Here, I have set the time zone to GMT and clicked Done. I think this is likely the correct England time or 1 hour earlier.

The screenshot shows a Windows XP desktop environment. In the background, a Microsoft Word document is open, displaying a blank page with the status bar indicating 'Page: 1 of 1' and 'Words: 0'. In the foreground, a Mozilla Firefox browser window is open, displaying the 'WLAN Gateway Module....' configuration page. The browser's address bar shows the URL '192.168.16.254/home.asp'. The page features a sidebar with a tree view containing the following items: WLAN AP, Operation Mode, Internet Settings, Wireless Settings, Serial Setting, Firewall, Managements, System Mgmt (highlighted), Firmware Mgmt, Config Mgmt, Port Mgmt, Packet Statistics, System Status, and System Log. The main content area is titled 'System Management' and contains several configuration sections:

- Language Settings:** A dropdown menu for 'Select Language' is set to 'English', with a 'Save' button.
- Module Name:** A text field for 'Name' contains 'PRC001', with a 'Save' button.
- Administrator Settings:** Text fields for 'Account' (containing 'admin') and 'Password' (containing '.....'), followed by a 'Save' button.
- Telnet Connection Count:** A text field for 'Count' contains '5' (with a note '(default: 5, 1-10)'), followed by a 'Save' button.
- NTP Settings:** A section with the following fields:
 - 'Current Time' showing 'Sun Aug 10 21:41:30 UTC' and a 'Sync with host' button.
 - 'Time Zone:' set to '(GMT) England' via a dropdown menu.
 - 'NTP Server' set to 'time.bora.net' (with examples: 'ex: time.nist.gov , ntp0.broad.mit.edu , time.stdtime.gov.tw').
 - 'NTP synchronization(hours)' set to '1'.Followed by a 'Save' button.

The Windows taskbar at the bottom shows several open applications: WLAN-AP - Mozilla..., FrigWeb, PRC Project, COM17 - PuTTY, GFMv1 - MPLAB IDE..., and Document1 - Micro... The system clock in the bottom right corner displays '5:41 PM'.

This is after 'Sync with Host'. Now it shows the correct time for Indiana (Eastern)

The screenshot displays a Windows XP desktop environment. In the background, a Microsoft Word document is open, showing a table of contents with sections like 'Cover Page', 'Blank Page', 'Page Break', 'Tables', 'Picture', 'Clip Art', 'Shapes SmartArt', 'Chart', and 'Hyperlink Book'. The foreground features a Mozilla Firefox browser window titled 'WLAN-AP - Mozilla Firefox' at the address '192.168.16.254/home.asp'. The browser displays the 'WLAN Gateway Module....' web interface. On the left is a navigation tree with options: WLAN AP, Operation Mode, Internet Settings, Wireless Settings, Serial Setting, Firewall, Managements, System Mgmt (selected), Firmware Mgmt, Config Mgmt, Port Mgmt, Packet Statistics, System Status, and System Log. A descriptive text for 'System Mgmt' reads: 'Configure lanaguage code for web sever, login account and password, NTP(system time zone), Green AP function for power save, Dynamic DNS.' The main content area is titled 'System Management' and contains several configuration sections: 'Language Settings' with a 'Select Language' dropdown set to 'English' and a 'Save' button; 'Module Name' with a 'Name' field containing 'PRC001' and a 'Save' button; 'Administrator Settings' with 'Account' set to 'admin' and 'Password' masked with dots, followed by a 'Save' button; 'Telnet Connection Count' with a 'Count' field set to '5' (default 5, range 1-10) and a 'Save' button; and 'NTP Settings' with 'Current Time' at 'Sun Aug 10 17:44:00 UTC' (with a highlighted 'Sync with host' button), 'Time Zone' set to '(GMT) England', 'NTP Server' set to 'time.bora.net' (with examples: 'ex: time.nist.gov , ntp0.broad.mit.edu , time.stdtime.gov.tw'), and 'NTP synchronization(hours)' set to '1'. A 'Save' button is at the bottom of the NTP settings. The Windows taskbar at the bottom shows several open applications: 'WLAN-AP - Mozilla ...', 'FrigWeb', 'PRC Project', 'COM17 - PuTTY', 'GFMv1 - MPLAB IDE...', 'Document1 - Micro...', and the system clock indicating '5:44 PM'.
