

Contest Rules

Total Prize of IoT iOffload Design Contest: \$15,000

- \$1,000 (WoW Prize) x 5 team
- \$500 (WIZ Prize) x 10 team

WoW means that WIZ of WIZ.

Requirements

To be eligible for judging, an entry must meet the following content/technical requirements:

- You must create a maker.wiznet.io account and register as a participant for this contest
- Posting your project until July 31 on maker.wiznet.io and instructables.com (or hackster.io)
- Your idea must include use of any the following WIZnet devices
 1. W6100 : HW TCP/IPv6 integrated with Ethernet MAC & PHY
 2. WIZ610io : io(internet offload) Ethernet module
 3. Any other customized module including W6100

For more details of the devices go to : maker.wiznet.io/contest/

To buy the devices for this contest : <https://eshop.wiznet.io/>
<http://shop.wiznet.eu/>
<http://shop.wiznet.hk/>
<http://shop.wiznet.co.kr/>

To win WoW or WIZ:

- Your project must be created using WIZnet devices
- Your project must be relevant to the theme of the contest
- Your final project must be fully documented on <https://maker.wiznet.io>
- Your final project documentation must include the following:
 - a) Images
 - b) Instructions
 - c) Components used in the project
 - d) Source code (Github)
 - e) Video (optional)

In addition:

- your entry must be your own original work; and
- your entry cannot have been selected as a winner in any other contest; and
- you must have obtained any and all consents, approvals or licenses required for you to submit your entry; and
- your entry may not include any third party trademarks (logos, names) or copyrighted materials (music, images, video, recognizable people) unless you have obtained permission to use the materials.

To enter the contest:

- If you are not already a member of maker.wiznet.io website, you will need to create a new Wiznet museum account.
- If you already have an account in maker.wiznet.io website ,register for the contest by submitting your project at this site
- Fill in the contest registration form and click "Submit" until 31st August.
- Please wait a few days while we review and judge your project submission

Judging criteria

Winners are selected based on the following criteria in mid-August:

Project Documentation

- Instructions – Show how you created your project, including images, screenshots, and/or video
- Components used in the project: Detail the hardware components as well as apps you used
- Source code – Include working code with helpful comments
- Great photographs, videos, and screenshots are worth a thousand words. Ask yourself: "If I were a beginner reading this project, would I understand how to recreate it?"
- Project must clearly address the contest theme which is 'IoT Project using Wiznet devices'

Creativity

- Your idea does not have to be original, but it should be creative (a fresh take on an old idea is often worth as much as a brand new idea).

OWNERSHIP OF SUBMISSIONS; LICENSES:

Participant has the intellectual property rights and ownership of submitted projects & codes:

But, sponsor can use the submitted projects & curated contents in maker.wiznet.io for the purpose of marketing:

As between Sponsor and Participant, Participant retains ownership of all intellectual property rights in and to the Project Content. Notwithstanding the foregoing, Participant acknowledges that a goal of the Contest is to encourage the development of contributions which may be freely used by the hardware hacker community, including users of maker.wiznet.io, and that any license applicable to any Project Content should be open source if code or, if other content, should permit copying, distribution, remixing, building upon or other uses for any purpose. To the extent a license or other restriction applies that may restrict such uses of any Project Content, Participant agrees to identify such Project Content and the applicable license or other restriction on the Project profile page. Sponsor is not responsible for any failure by any maker.wiznet.io user or other third party to comply with any license or restriction applicable to any Project Content, or any other use, replication, distribution, and/or modification of any Project Content by any person other than Sponsor (including, without limitation, the commercialization of any ideas). Participant waives all moral rights in Project Content to the extent such rights are waivable.

Others:

Please visit this page for more information about technical details of the Wiznet devices:
<https://maker.wiznet.io/contests/contest-in-progress/201905-iot-ioffload-contest/>

In case you find a WIZ610io or other contest module, then please visit e-shop of wiznet.io.

- <https://eshop.wiznet.io/>
- <http://shop.wiznet.eu/>
- <http://shop.wiznet.hk/>

- <http://shop.wiznet.co.kr/>

One can purchase WIZ610io module at half price (\$5 for WIZ610io) in May at above 4 shops.

If you have any queries, please email at: contest@wiznet.io or cdi@christuniversity.in

If you have any problem with the website, please email at: contest@wiznet.io.
